

Special Forces & Police Helmets

A multi layer, light weight, high performance helmet that protects the user's head against impact and ballistic hazards for the use of ground troops, police forces and special units.

Performance Protection:

- Standard USA National Institution of Justice (NIJ) 0106.01 Level IIIA
- Ballistic Performance: Tested in compliance with the American National Institute of Justice standard NIJ 0106.01.
- Protection level: IIIA according to NIJ standards, Fragmentation resistance: V50 min. 650 MPS for 17 grain according to MIL-STD-662E, min. 2000 ft/sec. (Level IIIA)
- Helmets are tested for penetration and back face deformation at Level IIIA using 9mm and .44 Magnum ammunition.
- Weight: 1,300 gr. (M) - 1,400 gr. (L)
- High comfort suspension system

Description:

- Ballistic helmet protects wearer from bullets, explosive fragments, and street riot stones.
- Fitted with fully adjustable harness system, which can be released and removed in just a few minutes by unfastening.

Construction:

- Internal suspension system
- 3 point attachment with adjustable harness
- Protective chin cup
- Quick release straps
- Maintenance-free outer shell.

Optional Design:

Face Shield

The Face Shields are attached by fastening a bolt onto the threaded mount on each side of the helmet. This can be done by either using a screw driver or small coin. Please note that the mounting bracket on the helmet must be factory fitted. If Face Shields are to be required in the future this should be considered at the initial ordering stage

Mushriqui Consulting LLC
