

Handheld Metal Detectors

Tactical Hand-Held Detector (THD)

The THD quickly and effectively targets all ferrous, nonferrous and stainless steel weapons, contraband and other metallic objects. It's unique 360°, 3½ inch detection area allows unrestricted scanning angles for fast and accurate hands-free body searches. No tools are required for replacing the 9V battery (included).

Features include:

- Ultra sensitive response time to metal objects
- Accurate detection of all ferrous, non-ferrous and stainless steel weapons, contraband and other metallic objects
- 360° detection area
- Does not require adjustments
- Silent Vibrating / Red LED Mode
- Bright LED flashlight for low light and night operations
- Sealed waterproof construction
- High impact case with molded rubber grip
- Easy ON / OFF battery cover
- 9V battery (included) operation
- Ballistic weave holster (included) mounts easily on belt or in car
